PROFILE

Data scientist with **three years building production machine learning and LLM systems** for a Nordic B2B distributor, on top of a **decade of commercial leadership** — retail P&L, private-label range strategy, pricing and supplier negotiation. I work end to end: modelled data in Databricks and dbt, models in Python, and delivery through Power BI or a small web app so the result reaches the person who has to act on it. The commercial background is the differentiator — I know which number a stakeholder will not trust, and why a technically good model fails to change a decision. Swedish, Norwegian and English.

EXPERIENCE

Data Scientist

May 2023 – present

Ahlsell Sverige AB · Gothenburg, Sweden

- **LLM document automation.** Built an Azure OpenAI extraction service that turns customer purchase orders arriving as PDFs into structured orders in the EDI/ERP flow — strict output schemas, field defaulting and enrichment, throttling and retry handling, CI/CD deployment.
- **Customer prioritisation scoring.** Designed and shipped an ideal-customer scoring model end to end: dbt models on Databricks, scoring logic, and delivery as both a Power BI template with DAX measures (six report pages) and a React/Vite application.
- **Sales forecasting.** Forecasting work treated as a product rather than a one-off report — modelled history, repeatable scoring, and actual-versus-target reporting so accuracy is visible.
- **Platform & reliability.** Deduplication logic in Databricks mart tables, Kafka-fed pipelines, Azure conditional-access and Kubernetes authentication debugging, Power BI semantic model regressions traced to upstream connector changes, and a Streamlit self-service upload path into the Databricks/dbt environment.
- **Evaluation & review.** Reviewer on an internal model-comparison study for LLM-based document extraction.

Product Manager (part-time)

Dec 2021 – Jun 2022

Ahlsell Norge AS · Oslo, Norway

- Pricing and range strategy for facility and storage products through a highly volatile commodities market; negotiated contract and pricing terms. Held alongside full-time study.

Private Label Specialist

Feb 2018 – Dec 2021

Ahlsell Norge AS · Oslo, Norway

- Built the private-label programme: national assortment and pricing, frame agreements and tenders for national accounts, retail concept, and industry trend analysis feeding new and existing range development.
- 150+ travel days and 90 destinations in 2018; the most-used trade-show consultant in the business across 2018–2019. Educated and supported a 700-person sales organisation.
- Started applying statistical analysis — correlation and causality — to range decisions; the work that led directly into data science.

Interim Store Manager

Mar 2014 – Feb 2018

Ahlsell Norge AS · Oslo, Norway

- Took over Ahlsell Norway's largest retail location (Brobekk, 15 staff) in the aftermath of a difficult merger. Restructured staffing, assortment and overheads; materially improved revenue and profitability.
- Repeated the turnaround at Bærum, then contributed to opening three further locations.

Warehouse Manager & Assistant Store Manager

Mar 2013 – Mar 2014

Ahlsell Norge AS · Oslo, Norway

Warehouse operations and day-to-day running of the store alongside the store manager.

Department Manager

Aug 2009 – Mar 2012

Smart Club AS · Slependen, Norway

Staffing, customer service, inventory, visual merchandising, budget and store safety.

Korpral — national service

2008

81st Rapid Reaction Platoon, Swedish Armed Forces · Halmstad, Sweden

Awarded best soldier; held a position of trust as protection assistant.

BOARDS & VENTURES

Board member

Present

BRF Nordostpassagen · Gothenburg, Sweden

Property and construction projects, finance and administration, member communication, and digitalisation of association operations (member pages, booking-system and analytics integrations).

Owner / landlord

2011 – present

Privately held rental units · Oslo & Gothenburg

Long-run management of privately held rental property in Norway and Sweden.

Owner

2014 – 2019

Perax AS (PerfectArt.no) · Oslo, Norway

Sourcing and price negotiation with domestic and foreign consultants; multi-channel sales platform and end-to-end logistics.

Board member

2019 – 2020 · 2014 – 2016

Alycore AS and Boligsameiet Conradis gate 1 · Oslo, Norway

Liquidation oversight in the interest of shareholders and creditors (Alycore). Fire-suppression retrofit to new regulations, common-area refurbishment and data/TV modernisation (Conradis gate).

EDUCATION

BSc, Applied Data Science (180 ECTS)

2021 – 2026

Noroff University College · Oslo, Norway — completed alongside full-time work

- Machine learning · big data (Spark, PySpark, Hadoop, Databricks) · statistical analysis · discrete mathematics (two levels) · algorithms and data structures · OOP and SOLID · RDBMS and NoSQL (Cassandra, MongoDB, Redis, Neo4j) · data visualisation
- **Final-year project:** congestion modelling of the Gothenburg public transport network using k-means and DBSCAN clustering on Västtrafik open data, published as a live Power BI dashboard.

Certifications

2012 · 2018

Private Pilot Licence (FAA) · Bareboat Cruising Certification (Sail in Asia). High school diploma, The American Embassy School, New Delhi, India.

SKILLS

LANGUAGES & QUERY

Python, SQL, Bash, R, HTML/CSS, LaTeX

DATA PLATFORM

Databricks, dbt, Azure, Apache Kafka, Delta/Spark, Docker, Kubernetes, Git & CI/CD

MODELLING

scikit-learn, regression & classification, k-means, DBSCAN, random forest, PCA, neural networks, TensorFlow, hypothesis testing

AI SYSTEMS

Azure OpenAI, structured document extraction, output evaluation, prompt design, RAG patterns, NLP/BERT

ANALYSIS & DELIVERY

pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI, DAX, Streamlit, React/Vite, Excel

COMMERCIAL

Pricing strategy, supplier negotiation, range & assortment, tenders, P&L ownership, team leadership, public speaking

LANGUAGES

Swedish (native), Norwegian (fluent), English (fluent)
